ESA DestinE Core Service Platform Use Cases project (DEUC)

Develop Use Cases to tangibly demonstrate the worth of Destination Earth in general and the Destination Earth Core Service Platform (DESP) in particular, offering actionable insights and decision support for the Green Transition and Digital transformation.

DESP Use Cases

- Harness DESP and DestinE-specific data
- Leverage operational or pre-operational software
- Unique from existing Entrusted Entity use cases
- Fuel co-development with the community's expertise
- End Users included in the consortium
- Completion within 1 year
- Budget up to 500K€

Animate the DestinE Community & consolidate requirements for the DESP

The Destination Earth Community guides DestinE's growth and sustainability:

- Collaborate with diverse experts to tailor solutions
- Test and validate new features within the community
- A robust community ensures DestinE's enduring success

The Destination Earth Website's Outreach, Development, & Operation

The joint Destination Earth website:

- Destination Earth's official hub, merging content from all 3 Entrusted Entities
- Your central source for DestinE updates, news, and opportunities
