ESA DestinE Platform Use Cases Project

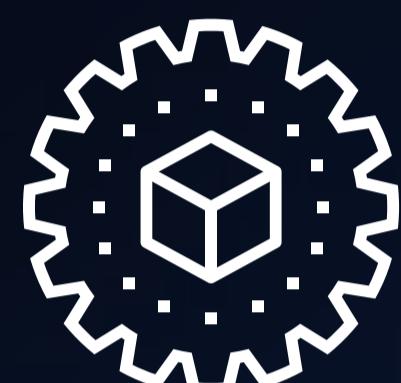

Stay informed of key milestones, events and engagement opportunities by subscribing to the DestinE community

[destination-earth.eu](http://destination-earth.eu)

Demonstrating the value of Destination Earth through the DestinE Platform and tailoring its evolution on real user needs

## Main Goals

Implement use cases to demonstrate the impact of the Destination Earth Service Platform (DESP) and DestinE infrastructure.

Engage with the community to co-design the DESP to ensure that it responds to real user needs.

## Use cases: fast facts

Selected through two rounds of ESA procurements.

Demonstrating DestinE and DESP added value in supporting EU climate change policy.

Diversity of applications related to the EU Green Deal and Digital Transformation programmes.

Agile and open source development using DESP services and DestinE specific data.
